More details of current officers and board members are available at: <http://isrsy.org/public/en/about-isrs/officers-board-members/>

### ISRS 14TH CONGRESS 2019

The Congress in Rio de Janeiro, Brazil, brought several firsts for the ISRS. The affiliation of local radiosurgery societies with our society, as well as corporate sponsorship, made the organization of a very successful Congress possible with well over 500 participants from over 50

countries. The choice of Latin America for the first time as congress venue brought additional challenges and benefits. The Scientific Program was well crafted with the incorporation of many suggestions from Board Members and their collaborators from all over the world.

#### ISRS Congress Awards

The following awards and fellowships were presented.

##### *Jacob I. Fabrikant Award*

John Adler, MD, Department of Neurosurgery & Radiation Oncology, Stanford University, USA

##### *Young Professional ISRS Award*
